The Institute of Family Health, a leading NYC Health Center, is now offering onsite primary medical care at CASES.

If you are well, we can help you stay healthy. If you are sick, we can treat you. If you have a chronic illness, we can help you take good care of yourself. We will make sure you receive all of the preventive services and health education you need. We can also help you access specialty services and hospital care if you need it. The primary care will be coordinated with the services you are currently receiving at CASES.

You are eligible for primary medical care if you are:

- 18 years or older
- Enrolled in Nathaniel ACT, Manhattan ACT, or the Nathaniel Clinic

On Wednesdays, between 1–5 PM, a Nurse Practitioner will be onsite at the Nathaniel Clinic offering:

- Check-ups
- Treatment for acute and chronic medical illnesses
- Health education
- Women’s health services
- Men’s health services
- …and much more!

Referrals

If you would like to make a medical appointment, please call the Nathaniel Clinic at (212) 553-6708.

If you would like more information about our primary care services or require help making an appointment, please speak with an ACT staff member or your clinic therapist or psychiatrist.
